

EVIDENCE-LED ECOSYSTEM DISCOVERY

Canada is building more than most people can see.

True North Map helps people find Canadian defence and dual-use capability, understand where it may fit, inspect the public evidence and move into a better-informed conversation.

Make Canadian capability visible.

More than a company list

- Reviewed organizations and technologies
- Mission Areas and released Public Needs
- Source-linked assessments and visible gaps
- Private Working Lists and human introductions

One decision journey

- Mission** → What are you trying to understand?
- Targets** → Which Canadian organizations may be relevant?
- Evidence** → What supports the connection and what is missing?
- Action** → Save the right organizations or start a conversation.

Trust is part of the product

REVIEWED PUBLIC EVIDENCE · TRANSPARENT GAPS · HUMAN REVIEW

Mission links are reviewed assessments. Public Needs come from released, source-gated records. Neither implies endorsement, eligibility or classified demand.
