

Make Canadian capability visible.

True North Map helps people find Canadian defence and dual-use capability, understand where it may fit, and move into better-informed conversations.

250+

reviewed organizations

240+

reviewed technologies

380+

cited public sources

30

released public needs

Follow the evidence. Find the fit. Start the right conversation.

01

Explore

Search the map by region, technology, organization or mission.

02

Inspect

Open the public sources behind profiles and released needs.

03

Act

Build a Working List, correct a record or request an introduction.

WHY IT EXISTS

Canada has capability. The missing piece is a shared picture.

Created by veteran and Combat Systems Engineering Officer Andrew Davies, True North Map is independent, transparent about gaps and built to help Canada's defence and dual-use ecosystem move together.
